Dear Mr. Baumler:

The Montana Department of Fish, Wildlife and Parks is proposing improvements to the Stuart Mill Bay Fishing Access Site at Georgetown Lake in Deer Lodge County. The property is located at approximately T5N, R13W S19. The report indicates no apparent cultural resources and, therefore, we feel that there is a low likelihood of impact to cultural resources.

Please review the enclosed Heritage Program Memo prepared by Tammy Cherullo, North Zone Archeologist on the Beaverhead-Deerlodge National Forest. This memo and the enclosed CRABS data entry form are for your records.

Please review and provide any comments or concerns regarding the project.

Sincerely,
